

Mathematical Problems

1. Nathan bought 43 Harry Potter cards at the shop. Outside, he met Callum, who had 83 cards. Along came Kieran who had none. The 3 friends decided to share all the cards. How many did they get each?

2. Daniel had some string for his conker that was 168cm long. How much did his dad cut off so that the string was only 79cm?

3. Sophie's leg measures 46cm. Danielle's leg measures 65cm. How much shorter is Sophie's leg than Danielle's?

4. Jack and Liam bought 58 chews each. How many did they have altogether?

5. Matthew bought 6 packets of football stickers that cost 12p each. How much change did he get from a £2 coin?

6. Jamie-Leigh bought a ribbon that was 175cm long. She cut off 37cm because it was too long. What was the length of the ribbon now?

7. Rachael bought 2 apples that were 28p each. How much change did she get out of £1?

8. Alexander and William pushed a toy car across the carpet. Alexander pushed the car 189cm and William pushed it 176cm. What was the difference between the distances?

9. David had 90p in his pocket. He didn't know there was a hole in his pocket and out dropped 2 20p coins. What was left in David's pocket?

10. Cloe had £5 worth of penny sweets. She ate 32 of them. How many did she save for later?

Mathematical Problems

1. Daniel bought 44 Harry Potter cards at the shop. He shared them between himself and his 3 friends. How many did they get each?

2. Charlotte had 56 sweets. She ate a quarter of them. How many did she have left?

3. Demi got 50p off her nana every week. How many weeks was it before she could afford a Barbie for £10?

4. Jack and Liam bought 42 chews each. Jack ate 24 and Liam ate 18. How many were left altogether?

5. Dad bought 3 bananas that each weighed 130g. What was the total weight of the bananas?

8. Jamie-Leigh bought 5 boxes of crayons. They came in boxes of 120. How many crayons did she have altogether?

8. Chloe is 45cm shorter than Danielle. Danielle is 114cm tall. How tall is Chloe?

9. Matthew played 3 games on his Gameboy. His scores were 174, 190 and 125. What was his total score?

10. David had £3.77 in his pocket. Draw the coins he might have had.

10. Helena bought 4 bunches of flowers. Each bunch contained 8 flowers. How many flowers were there altogether?
